

B K 7 0 S

Conservation Oil (Sea Transportation)

Description

BK 70S is a premium quality conservation oil containing very effective adsorption corrosion inhibitors. Developed to replace the usual conventional products and protect the natural environment.

Areas of Application

BK 70S is specifically designed for use in sea transport operations to conserve and protect metal materials against atmospheric corrosion.

Characteristic features

- Readily biodegradable;
- Excellent anti-corrosion protection;
- Recommended for Sea Transportation

PHYSICAL PROPERTIES

PARAMETER	UNIT	TEST METHOD	VALUE
Density at 15 °C	kg/m ³	ISO 12185	880
Kinematic Viscosity at 40°C	mm ² /s	ASTM D445	70
Pour point	°C	ASTM D97	-35
Flash point, COC	°C	ASTM D92	>200
Oil film weight at 20°C	Kg/100m ²		2-3
Biodegradability (within 21 days)	%	CEC-L-33-A-93	>90

Issue Date: 7/3/2016
